("Document Requests") to Plaintiffs ASAT Holdings, Ltd. and ASAT, Inc., dated September 18, 2003, as follows:

#### GENERAL OBJECTIONS

#### **GENERAL OBJECTION NO. 1**

ASAT objects to the Document Requests to the extent that they call for the production of documents that are neither relevant to the subject matter of this action nor reasonably calculated to lead to the discovery of admissible evidence.

## **GENERAL OBJECTION NO. 2**

ASAT objects to the Documents Requests on the grounds that they are overbroad and unduly burdensome as they are unconstrained by any time period.

#### **GENERAL OBJECTION NO. 3**

ASAT objects to the Documents Requests to the extent that they call information that is confidential or proprietary to, or contains the trade secrets of, ASAT or a third party. Each such document request is overly broad, unduly burdensome, oppressive, and seeks to impose obligations beyond those permitted by the Federal Rules of Civil Procedure and/or the Local Civil Rules. To the extent that ASAT produces documents in response to the Document Requests, even if not otherwise subject to objection, ASAT will do so only in accordance with a protective order entered by the Court in this action.

#### **GENERAL OBJECTION NO. 4**

ASAT objects to each request to the extent it purports to require ASAT to produce documents in violation of a legal or contractual obligation of nondisclosure to a third party. Mentor will not produce such documents without either the consent of the relevant third party or a court order compelling production.

#### **GENERAL OBJECTION NO. 5**

ASAT objects to the Document Requests to the extent that they call for information, documents, and things protected from discovery by the attorney-client privilege, the attorney work product doctrine, or any other applicable privilege or immunity. To the extent that ASAT produces documents in response to the Document Requests, ASAT will not produce any

1 | 0 | 2 | 0 | 3 | 4 | 6 | 5 | 6 | 7 | 6

document protected by such privileges or immunities, and any inadvertent production or disclosure shall not be deemed to constitute a waiver of any such privilege or immunity. ASAT will prepare and, subject to agreement of counsel, produce a log identifying any materials, otherwise responsive, that have been withheld on grounds of attorney-client privilege or the attorney work product doctrine. ASAT will not, however, list on such log any materials withheld on the basis of attorney-client privilege or the attorney work product doctrine and generated on or after the date on which this litigation commenced with the filing of the complaint.

#### **GENERAL OBJECTION NO. 6**

ASAT objects to the Document Requests as overbroad and unduly burdensome to the extent that they call for the production of "all" responsive documents. ASAT's responses are based upon a reasonable and good faith search, given the time allocated to ASAT to respond to the Document Requests, of ASAT's facilities and files that could reasonably be expected to contain responsive information. ASAT will produce only those documents in ASAT's possession, custody, or control that ASAT is able to locate pursuant to a search and inquiry using reasonable diligence and judgment concerning the whereabouts of responsive documents.

#### **GENERAL OBJECTION NO. 7**

ASAT objects to the Document Requests to the extent that they call for production of documents already in the possession, custody, or control of Motorola, or which are available to Motorola, formally or informally, from public or other sources, on the grounds that such Document Requests are unduly burdensome and oppressive.

#### **GENERAL OBJECTION NO. 8**

ASAT objects to the Document Requests on the grounds that the time and place specified for production is unreasonable. To the extent that ASAT produces documents in response to the Document Requests, ASAT will do so at a time and place mutually agreed upon by the parties. Moreover, ASAT's response that it will produce documents in response to a Document Request does not necessarily mean that responsive documents exist, but instead that ASAT will produce documents if such documents are located.

#### **GENERAL OBJECTION NO. 9**

When ASAT produces documents in response to the Document Requests, ASAT does not concede that the documents requested or produced are relevant to this action. ASAT expressly reserves the right to object to further discovery into the subject matter of the Document Request categories and the introduction into evidence of any document or portion thereof.

## **OBJECTIONS TO DEFINITIONS AND INSTRUCTIONS**

- 1. ASAT objects to Motorola's "Definitions" and "Instructions" to the extent that they are inconsistent with or seek to impose obligations beyond those imposed by the Federal Rules of Civil Procedure and/or the Civil Rules of the Northern District.
- 2. ASAT objects to the definition of "RELATING TO" on the grounds that it is vague, ambiguous, and overbroad, and renders many of the Document Requests unintelligible. ASAT will construe these Document Requests as seeking documents that "evidence" their respectively described categories.
- 3. ASAT objects to the definition of "BGA" on the grounds that it is vague, ambiguous, and overbroad. ASAT will construe "BGA" to mean ball grid arrays of the type available at the time when the Immunity Agreement was executed, and similar devices, and to exclude FPBGAs.
